The Ordnance Survey tile is to be used as a guide only.

OS Buildings *Surveyed Buildings*

This survey has been orientated / graphically fitted to the Ordnance Survey (O.S.) digital tile.
This is to show the survey in context with its surroundings.

Although O.S. Coordinates are shown on this plan the grid is to be treated as arbitrary.

No scale factor has been applied to the survey therefore the coordinates shown are not true O.S. Coordinates.

Please refer to Survey Station Coordinate Table above to enable correct establishment of the on-site grid used.

Comments
This plan should only be used for its original purpose.

All dimensions should be checked on site prior to design and construction.

Drainage information (where applicable) has been visually inspected from the surface and therefore should be treated as approximate only.
