

**REPLACEMENT FENCING TO BOUNDARY
TO WOODFIELD LANE**

at

**THE TWELVE APOSTLES CHURCH
KENTISH LANE, HATFIELD, AL9 6NG**

DESIGN & ACCESS STATEMENT

Design – The new length of fencing is to replace the existing wall, which is in a poor condition and is falling over in places, which could be considered a Health & Safety hazard. The fence is designed to match in with the two sets of existing gates and form a reasonably secure barrier to this length of the boundary.

Access - There is no change to the existing access to the site.
