**Subject:** carpark proposal ~ S6/2010/1711/FP. Viaduct Car Park.

Dear Mrs Hughes,

I have only recently heard about this proposal to build a car park behind our residence as I have been away on holiday, I therefore have not had a chance to look at the plans and even if I were not on holiday the hours which we are allowed to look at them would not allow me to do so as I work during the day. I have however spoken to some of the other residents who have given me a rough idea of what is proposed and I can honestly say from the sound of it I feel I have to pass on my objections. Having a car park build behind us will increase the noise levels throughout the day, it will also increase pollution (which may affect my asthma and could possibly induce it in my 2 year old daughter). Part of the reason we moved here was because it was a quiet and peaceful place to live and this will be completely destroyed if a car park is built behind our flats, not to mention the damage it will do to the value of our property.

I do hope serious consideration will be taken to our views in this matter and look forward to hearing the result

Many thanks
