Subject: Proposed Viaduct Carpark ref S6/2010/1711/FP

Attn Lisa Hughes

In response to Peter Clegg's letter dated 25th October 2010 addressed to you, we believe that there is nothing in it which is remotely relevant to this application, by which we mean that whether or not the cricket pitch car park is left where it is, or is moved to the proposed viaduct site, or to any other site makes absolutely no difference to the various points that he has raised. As far as we can see, the costs of running the estate are not affected by the positioning of this car park; indeed the estate will save money, and lose no amenities, by leaving it where it is.

Regards,
