

Memo.

Date: 3rd September 2011
To: Planning
Cc: -
From: Miriam Hill
Subject: S6/2011/1617FP – The Twelve Apostles, Kentish Lane, Brookmans Park
Rebuilding of existing boundary wall

I have reviewed the proposal for the above site and refer to drawing number SK/02A SK/01A.

Arboriculturally

There are a number of important mature trees adjacent to the wall within the back verge. The trees are referred to and indicated on the plans. It has been indicated that the wall construction is to be amended by the trees and the trench hand dug around the trees.

If the applicant went further and assured us that there was to be no mechanical damage, stacking of deliveries, vehicular or skip storage or parking or washing of tools under the trees that would be a proportionate Tree Statement for this particular site.

Landscape

The proposal does not indicate any amendments to the landscaping. Should any of the trees adjacent to the wall die within a few years of the building works the applicant should replace the tree with the same species in a similar location and maintain it until established.

Summary

Overall I have no objections to this application. I hope that these comments are clear and that if you need anything further then please contact me.
