Dear Mr Jefcoate,

RE. CHURCH OF TWELVE APOSTLES – Retention of Change of Use of land to create extension to existing car park and associated landscaping and vehicle crossover

We have studied the revised plans for the extension of the Car Park at the above Church and agree to accept these. Now the Greek community must adhere to them. We did notice that you have not included change of entry to properties opposite the Car Park entrance – The Bungalow, Woodhill Farm and Lakewood House. This is not shown on the map.

We will be keeping a keen eye on the planting of the shrubs and trees and hope that by using yew and holly amongst other shrubs a good screen will be achieved. We did not move into the country to look out on rows of cars. However this will hopefully be moving the cars off the road and will save accidents happening.

We fully realize that at the time of the two main religious festivals, Easter and Christmas, then the roads and lanes will have to be used.

I would like to point out that we have already made note of cars which have been parking in the road recently, while there is ample space in the car park. We will continue to check on this. Is it possible to use double yellow lines in some places?

We have always had a good relationship with those in charge at the Church and we do not want to fall out with them.

Yours sincerely,
