Comment Type: Object

Comment: I wish to raise the strongest possible objection to any such proposal. It may be relevant to point out that in the vicinity and within a few hundred metres of this proposed development, there are already 4 Restaurants, 6 premises where food is also served, and two Mobile Coffee Vans in addition to the local supermarkets where sandwiches and drinks can be purchased. It is quite clear that this particular sector of catering is already saturated and any further addition would cause unhealthy competition particularly at a time of an extremely challenging economic climate.
