Comment: Having viewed the plans as they were available at the time, at the Planning Office, we would like to comment on the fact that the projected fence is to be black, green would be less obvious as it is going to make quite an impact down this road. It is difficult to consider the mess of growth, on the roadside, as a hedge. Vehicles catch it all the time as the growth is rampant. We trust this will be considered at the same time as the fence.
