Comment: Thank you for bringing this application to my notice. From a crime prevention perspective I do not have any major objections to the proposal. I would however like to see the two bollards in front of the ATM installed to a creditable security standard. I would recommend the lowest achievable PAS68/69 standard. This standard relates to a small vehicle (car) travelling at a low speed (20MPH) and is suitable in this instance. Additionally the maximum gap between all installed bollards should be 1.2 M. I am willing to discuss this matter with all interested parties. Gerry Brophy, Principal Crime Prevention Design Advisor, Hertfordshire Constabulary.
