I strongly object to the above development for the following - 1. I assumed all new builds should have parking spaces for each accommodation none are shown on the plan. assumably they will park in the existing residence spaces. 2. It will be more or less impossible for emergency vehicles or refuse trucks to access the rear of the development due to an already congested area and a tight turn under the arch. 3. We do not need another takeaway in Cuffley there are enough already, since this application another eatery is in place (Costa) and will create even more rubbish and traffic congestion. Also we already have to put up with odours from the Indian, fish shop and the disgusting compost site wafting across our gardens, how many more smells are we to put up with. 4. There are enough developments going on in Cuffley we do not need another in such a small crammed area.

Mr R Elves, 6 Tolmers Gdns, Cuffley.

PS I have already made my comments previously on line but never received an acknowledgement. Please ignore this if you have received my previous objection.
