**KEY:**

- Herbs
- Grasses / meadow
- Nuts
- Soft fruit
- Shrubs
- Fruit Trees
- Compost
- Vegetables
- Rockery
- Water channel / feature
- Pond
- Tree

Note: Planting shown here is indicative; with the aim to provide a good balance of: perennials, annuals, deep rooted (nitrogen-fixing) plants, shrubs, trees, nuts and fruiting plants, plants that attract bees and other invertebrates in line with forest gardening principles which include; various levels of planting to make use of height, thereby increasing density and maintaining cover over the soil such that it is protected throughout the year. A more detailed planting schedule might be produced as the gardens develop and as more detailed knowledge obtained as to which species are successful and in which zones.
