Comments

This is on Greenbelt land. Cuffley is a suburban village not an urban town. We do not have enough schooling, doctors and no A&E at Chase Farm. The road infrastructure will not cope with increased traffic. Our grass verges are already constantly being churned up by construction traffic to individual residential dwellings. Our wildlife will be affected by continued development, including endangered species, bats, hedgehog, muntjac. Pedestrians, children runners and the many cyclist of our neighbourhood will be endangered by increased traffic on roads where we have narrow footpaths and roads with no paths at all. We would experience more flooding, drainage and water waste issues. Will the council reduce council tax in light of substantial increased amounts from new residential units.
