Comments	<p>This planning application is contrary to the best interests of the Cuffley community and indeed transcends the existing understanding of development in a Green Belt by Custom, designated area of habitation. If this application is upheld then the stress of living in Cuffley will exacerbate to a level of amenity congestion with regard to traffic along a 'B' Road and by excess habitation, bearing upon village social provision of Parking and local Shopping and Pedestrian use. The area of Cuffley Village at the St Andrews triangle is uncrossable by the elderly and the terrain prohibits a Pedestrian Crossing at this crucial point of Village use. In the present climate of lock down inhibition it is particularly inappropriate that this development is brought into planning consideration, for our living future outside the EU though now requiring an ingenuity of progressive investment should not override the important lesson of living harmoniously together as citizens in Cuffley.</p>
