Comments	<input type="text" value="I have viewed details of this application and I continue to be distressed at the insistence of the applicants in putting forward an application which is so similar to others that have been dismissed. The site sits at a most dangerous point for ingress and exit of vehicles and would add to the already overloaded road capacity. Bearing in mind that development as proposed would create an unnecessary hazard to the nearby school as well as being totally out of character with its immediate environment, I strongly oppose and recommend the application be decline.d"/>
