Comments	<input type="text" value="I fully support this application as it promotes our beautiful countryside, sustain arts and generates revenue for the local community and above all, in timing such as the one we are going through, keeps people employed in an industry which has been badly hit by COVID-19. I wish we could see more of these initiatives taking place in support of the local community. Filming does not pollute as noise levels must be kept to almost 0 decibels and this particular house given its settings and design is a unique marketing tool for the whole area."/>
