Comments	<input type="text" value="Cuffley does not have the infer structure to support us now let alone more families and cars, not enough doctors appointments school places with what is already built without adding to it. The traffic is awful at school drop off and pick up the roads come to a halt, and if there is a problem on the M25 the traffic through Cuffley is at a standstill. We do not have a hospital with a A&E for miles where are these people and cars going to go. The green belt being used up is not good for the environment and that part of the road is prone to flooding remove the fields where is that water going to go."/>
