Comments	<input type="text" value="i believe the government directive is to save the green belt , not to allow developements of this nature in an area that is already having trouble coping with population growth and infrastructure, continual traffic jams , Cuffley is a village and should stay that way as that is the reason a lot of people moved here . The green belt must be protected as per government directive and the door should not be opened up to this development and others that may follow ."/>
