Comments	<input type="text" value="I object to this planning application on the same grounds as the previous application for the same planning consent. I am a top floor flat owner so this application affects me directly. I have a skylight in my bathroom which will have to be removed, losing natural light and the value it adds to my property. The construction will take a long time which will cause huge inconvenience to myself and other residents, especially on a high street location where there is so little space. This will also lead to a loss of value in the properties. The plans for the car park have barely changed from the previous application. There are already too few spaces for all the residents and shop owners to share. And no effort has been made to improve this with the new plans. Actually there will less parking and more cars. And the only other spaces around the flats are timed and subject to penalty charges. I have received a few in the past because even now sometimes there are no spaces free."/>
