Comments	<input type="text" value="If memory serves me correctly,a previous application,which was refused,advised that due to privacy aspects,that North facing flat windows would not be living/kitchen areas.This was to ensure privace to those living in Barham court which are directly overlooked by Everest House. It is the case that these premises are mainly occupied during working office hours,this means in the evening residents of Barham Court were not troubled by residents looking directly into their apartments. At present the fence separating Everest house and Barham court is metal railings.Might i suggest that some kind of screening is erected,in order that we maintain our privacy whilst using the garden,and allowing us not to have to close curtains. I would also like to have details of where the 43 parking spaces are to be allocated,as this seems insufficient for 32 residential flats."/>
