

Comment for planning application 6/2021/3401/MAJ

Application Number	<input type="text" value="6/2021/3401/MAJ"/>
Location	<input type="text" value="Ocado Ltd Gypsy Moth Avenue Hatfield AL10 9BD"/>
Proposal	<input type="text" value="Installation of 3,536 solar photovoltaic (PV) array and al associated hardware on existing roof."/>
Case Officer	<input type="text" value="Ms Kirsty Shirley"/>
Organisation	<input type="text"/>
Type of Comment	<input type="text" value="Objection"/>
Type	<input type="text" value="neighbour"/>
Comments	<input type="text" value="I object to this application for the following reasons: Document REP-001 Planning DAS Ocado Hatfield v2 Section 4.2.2 Temporary construction compound - there are no details as to where this will be sighted. We are already blighted by 24/7 noise from the site. If this compound is located near to my property, I am concerned over yet more noise issues. Why has the applicants not confirmed this basic detail in their plans? Section 4.8 What restrictions will be placed on the operating hours for the installation of the development? The proposed timescale is for a total of 12 weeks. What noise can be expected outside of 9am-5pm 5 days per week? The proposal is silent on this. Ditto, noise issues from delivery of components. General - during construction, what about HGV vehicle movements around site. How will these be managed to minimise noise for local residents? General - what will the ambient noise levels be post installation? Is this proposal to be operating in silence?"/>
