Dear Dora,

Thank you for your comment regarding the extractor flue outside of the restaurants. Unfortunately I cannot see any attachments with this email. Would it be possible to re-send with the photographs please?

Kind Regards

Emily Stainer

Subject: Extractor Flue outside restaurants Ref no 6/2016/1068/full A3cafe/restaurant application

Dear Jane,

Enclosed are 2 photos of extractor flue outside a restaurant in chase side Southgate London N14, to give you an idea what the extractor flue, looks like.

This is what would be installed at the side of the proposed restaurant in Station Road Cuffley if planning permission was granted. As you can see, It looks ugly and is an eyesore.

All the restaurants and take away food outlets have these fitted outside their buildings, to extract the

cooking smells and fumes.

It looks ugly and is an eyesore in the area. This one is fitted in the photo, is to a smaller restaurant. So the proposed restaurant in Cuffley the extractor system would be larger.

I don't think anyone would like looking at this type of extractor fan if it was attached to the flats where they lived.

I would hate to look at this every time I approached the entrance to my flat, also the smell of cooking fumes, If I lived there

If people knew that there would be a restaurant in the building when they were buying them, I don't think people would have bought a flat there.

You cannot open the windows or sit in on the balcony in the summer, because of the cooking smells, also parking of cars would be a problem, and noise late at night.

To Open 7 days a week

Hours 7am till 11pm

Hope you will consider the comments that I have made, Thankyou

Kind Regards

Dora Georgiou
