Comments	<input type="text" value="I strongly object to the proposal for a terrace on the flat roof above the ground floor extension at the rear of the property. This will overlook our garden and completely remove any privacy we have. We have two young children who play in the garden and this terrace will allow the residents at 21 Kingswell ride to sit outside at an elevated position and watch them play. It is a complete violation of our privacy and should not be allowed. My children should not have to play in their own garden whilst people are able to sit on an elevated terrace and watch them. There is absolutely no need for it. They already will have a large rear patio as well as the enormous house they are building at the rear of the garden. If the views were so important to them they would not be erecting this massive structure at the rear of their garden that completely obstructs the view."/>
