<b>Comments</b>	<input type="text" value="There are three dead horse chestnut trees/stumps at G3. I assume the application is for all of them to be felled. A large branch fell off one in high winds a few months ago, and the same could easily happen again to all three. As they are next to Park Close communal grounds they are an accident waiting to happen. See picture attached showing the three (two to the left are close together)."/>
