Type	<input type="text" value="neighbour"/>
Comments	<input type="text" value="As a previous long-time resident of WGC, I feel entitled to comment. My concern is for the trees which, together with the old cottages, have long been a significant urban landscape feature. If approved, I should hope that the builders will be obliged to use foundations specifically designed to preclude any interference by tree roots. If possible, a condition should be imposed strengthening the TPOs by stipulating that subsequent applications to fell or reduce the trees alleging interference with foundations will never be entertained."/>
