Comments	The revised roof plan still leaves a large void at the rear (east) side of the new office building. This has a depth of 2.4m and a width of up to 25cm. As per our previous comment, this will allow detritus and damp to affect our wall and two other walls attached to historic buildings. The revised roof plan has a steeper pitch and therefore intrudes further into our	

sightlines, beyond the 25mm agreed with the applicants. The revised plan with steeper pitch leaves no provision/access for the void to be cleared out or for the gutters to be cleaned and maintained. We have raised these issues directly with the applicants but have received no
