This is extremely concerning. The site of 35 Northaw Road East, was originally developed for a detached bungalow. As most of the properties in Cuffley were at the time (circa 1930). Although extensions and loft conversions are commonplace, this particular site is now being developed to such an extent, that it is no longer in keeping with any of the neighbouring properties. Not only is the main building being developed to be higher, wider and deeper than any of the neighbouring properties, there is now another huge brick built construction being built, close to the boundaries of FOUR adjoining properties. That further development is being applied for is a clear indication of what happens when a lack of control and enforcement is evident. Unless further development is halted to this property, I fear that 35 Northaw Road East will become little short of a housing estate. Already a blot on the landscape and blockage to evening sunshine to our garden. Please, please reject this proposal.
