<b>Type of Comment</b>	<input type="text" value="Objection"/>
<b>Type</b>	<input type="text" value="neighbour"/>
<b>Comments</b>	<input type="text" value="The application if successful, would result in a 3 storey house in an area where all properties are either bungalows or 2 storey houses. This particular property would have been an original bungalow, so it would clearly be in contravention of the original concept of homes in the area. If approved, this would create a terrible precedent and would encourage similar height extensions to nearby dwellings. I therefore object to this application and insist that all works do not exceed the existing roof height for the dwelling. This would create a new and unpleasant horizon for me and my neighbours. I trust that you will therefore reject this application forthwith."/>
