Waste Comments
Thannes Water would advise that with regard to FOUL WATER serverage network infrastructure capacity, we would not have any objection to the above planning application, based on the information provided.

With regard to SEEFACT WATTR: Arrainage, Thanses Water would able to the fair (the developer follows the sequential approach to the disposal of enface water we would have no objection. Management of unface water from new developments should defen belong \$11\$ Statististic learning of the London Pan 2011. When the developer follows the sequential approach to the disposal of enface water from new developments should be followed \$11\$ Statististic learning of the London Pan 2011. When the developer propose to deckurge to a public server, prior approach to the Thomas and the Control of the

Secretaria of the Control of the Con
