<b>Comments</b>	<input type="text" value="I have two concerns about this application. 1)This application will obviously increase the number of people using this development,this will also increase the numbers arriving by car,are any extra parking spaces being made available.We already know that Sopers road public car park is full most days.That being the case,where will they park.Barham court which is directly opposite is already experiencing problems with commuters using our visitor bays,leaving their cars here all day,surely this will have additional impact on our car parking. 2)Looking at the drawings it appears a back door attempt at creating dwellings on the top floor,it needs confirming that these additional spaces are not used for living accomodation, that was previously refused on previous applications.It also seems that by creating a roof terrace,that will overlook Barham court,any gatherings would impact our community spaces."/>
