Thank you for sending us details of three outstanding planning applications which arrived on 17/10 and were considered at our planning committee meeting on Sunday 18/10 with the following response:-

HATFIELD LONDON COUNTRY CLUB S6/2009/1877FP

✓ LH

We consider this to be contrary to Green Belt policy and housing policy. The housing survey in 2008 revealed the urgent need for affordable housing in the area, yet we are presented with proposals to demolish 2 "working cottages" and replace them with a single large executive mansion. Unacceptable, unsustainable and corroding of community life. If the developer wishes to collate the footprint and build 4 affordable homes, we might consider it.
