Comments	It is my opinion that the village of Cuffley cannot support any further development as the infrastructure cannot address the needs of the residents. The development would cause extra traffic onto Northaw road east an already busy and dangerous road. Cuffley has many older properties with older residents that are in disrepair and would benefit from refurbishment for use for younger growing families , simply building new homes is not the answer and an attempt to cash in on house prices rather than address a shortage of family homes.
