Dear Madam,

We are writing to you regarding the above application reference.

We originally made an objection to the said application, part of our objection was the size of the porch that had been built. We were invited on to the property to measure the size of the porch. The measurements of the brick work are within the specification of a drawing seen within application 6/2020/1895/HOUSE. The only differences being that the roof design has changed (as required by Welhat planning) and the frontage has changed to door only instead of door and window. We have not seen any diagrams showing these changes but we are happy to accept the porch

We are still objecting to the plans for the front garden conversion to off street parking.

Regards

[REDACTED]
