<b>Comments</b>	<input type="text" value="It has been brought to our attention the proposal of number 48 being converted to a childrens home. This was via a residential group chat! Going through the application it states that the neighbours have received notification of this proposal. We have not received anything! We are writing to object given this is intended to be a residential area which already is flooded with HMO. The landlord of these HMOs already do not give a monkeys about the state of their properties which results in over flowing bins unkempt gardens and general mess and disturbance . When were the residents going to be informed of these plans??? Given the fact we have not been notified and the closing date for comment is next week suggests this has all been done on the quiet so no one can object. Quite frankly this is nothing short of appalling!!!"/>
