Comment on Planning Application: 6/2022/1610/HOUSE

Essendon Parish Council continues to object to this proposed extension of the dropped kerb to this property. The purpose is clearly to facilitate the parking of further cars on this frontage which will harm the character and appearance of the Conservation Area. Comments by the Conservation Officer under the two previous applications on the importance of retaining hedging and introducing 'meaningful' planting have not been addressed under this new application.

In terms of public safety, we note that the Highways Authority have now recognised that the existing dropped kerb is the maximum size allowed and that, as cars cannot turn around within the front garden, cars will have to reverse onto the busy High Road which is dangerous and contrary to current policy.

As such we strongly object to this new application.

Cllr Mike Brown
Essendon Parish Council
(Planning and Heritage)
