I object to the application reference 6/2020/1768/HOUSE for the following reasons: 1 Change of character - the roofline of the road. It currently looks like a chalet bungalow, following this planned redesign the character is changed to that of a disproportionate twostory house. 2 Loss of light - Due to the planned changes to the profile of the property from a sloping roof to vertical sides at first floor level, which is exceptionally close to the neighbouring house, there will be a significant loss of light to the neighbouring sides. Light will be lost at both first floor and ground floor levels. 3 Overshadowing - Because of the significant increase in volume of the first floor there will be an increase of shadowing to the surrounding areas. 4 Loss of privacy - The additional windows on the outside edge of the first floor front and rear of the house will have a significant effect on the privacy of the neighbouring houses.
