RE-CONSULTATION

ARCHAEOLOGICAL IMPLICATIONS

Thank you for advising us that amendments to the above application have been received.

Our advice to the Planning Authority concerning this proposal remains unchanged from that provided in our correspondence dated 15th July 2019; i.e. the site has the potential to contain below ground archaeological remains (heritage assets), and provision should be made to mitigate the impact of the development on any such archaeological remains present via the placing of three appropriately worded conditions on any planning consent.

I therefore have no additional comment to make upon the amended application.

Please do not hesitate to contact me should you require any further information or clarification.

Yours sincerely,

Alison Tinniswood BA MA ACIfA
