Dear Sukhdeep,

ARCHAEOLOGICAL IMPLICATIONS

Thank you for consulting us on the above application.

As per our comments concerning a previous pre-application consultation (6/2020/1050/PA, advice dated 30th June 2020), the proposed development is not in close proximity to any known archaeological remains. Prehistoric remains of significance have been discovered within Hatfield Aerodrome, but over 600m to the west and north west on land that would have been originally topographically prominent. The proposed development site, while of a reasonably large size, is on land without that prominence, and on ground likely to have been heavily disturbed by 20th century development.

In this instance, therefore, we consider that the development is unlikely to have an impact on heritage assets of archaeological interest and we have no comment to make upon the proposal.

Please do not hesitate to contact me should you require any further information or clarification.

Yours sincerely,

Alison Tinniswood BA MA ACIfA
