Address: 33 Church Street, Hatfield AL9 5AS Comment Type: Observation

Comment: I am concerned about the trees on and outside the north-west border of the development site. The site is very small and my worry is that these trees, which provide a valuable screen, will be damaged or compromised in the course of the works, and that removal or aggressive pruning will then follow. I am also concerned that the trees on the opposite side of Church Lane in the grounds of St Audrey's will be compromised in a similar way.
