I have very serious concerns about the way this application has been handled by a group of people who are supposed to listen to balanced arguments.

The amount of effort put in by the council to paint this application in such a positive light makes me feel like the council want to push this through without properly considering both sides of the argument.

I feel the precedent that would be set by this development would open the floodgates to a "Goffs Oak" amount of building, in villages whose infrastructure simply cannot cope. I do concede that there are times when Green Belt land can be built on, but this application doesn't support that.

The appeal was rejected. You can't just keep appealing until you get the answer you want and wasting our money doing so.

I applaud the Parish Council for helping us appeal, and the local resident who used a considerable amount of money to challenge this.

It shouldn't take them to be the ones to have to point out to you the correct way to do things.

I hope you can see sense and reject this application.

Kind Regards

[REDACTED]
