Comments

We would like to object on the grounds of both Privacy and scale, the proposed building is Overbearing. 1. Privacy - The proposed building will face onto our garden and our home, as well as our neighbours (Kitchen, dining and bedrooms). We are concerned with the amount of glazing in the french doors and number of windows. We have attached a photo showing this. The windows and doors are installed at a height which appears higher/taller than typical garden buildings in a neighbourhood such as this. Windows in both external flank walls overlook neighbours properties. This could impact on the private amenity space use of neighbours properties 2. Overbearing - The proposed building is significantly larger than other garden sheds/buildings in the area. It appears out of proportion. It's proximity to neighbouring boundaries and it's height is overbearing and will impact on neighbours use of their private home amenity space.
