<b>Comments</b>	<p>The planning application form, section 5, requires the applicant to detail the type, colour and name of each material to be used externally. The applicant has only gone as far as to state 'log cabin timbers' and 'timber doors to match walls' and 'timber windows to match walls' and 'felt shingles' We would ask that the information is withdrawn and updated to include the type colour and name of each material. Furthermore, the validation checklist section 10. ask applicants to select materials which blend with existing buildings. The local area is dominated by white rendered 1940's buildings with clay or concrete roof tiles, which this proposal is clearly at odds with.</p>
