Comments	<input type="text" value="While I don't object to the building of 14 new homes at Wells Farm as such, what I object to is that this is just part of a much wider development which can't be sustained in Cuffley ie 700 new homes. Cuffley doesn't have the infrastructure to cope with this large influx of people and cars. The roads and the railway are already at peak capacity at rush hours (except during lockdown of course). The full development would also ruin the green belt around Cuffley which is an important feature of the village and should be protected not built upon."/>
