<b>Comments</b>	<input type="text" value="1. Application assumes 10 garages will be allocated for parking which is inaccurate. Currently none of the garages are used for car parking due to their small size and ownership 2. There are flats with more than one vehicle, I don't think this is acknowledged in the planning application either 3. There are constantly 5 to 7 more cars parked than the allocated car parking spaces 4. Has Affinity Water been consulted regarding the water pressure to the top apartments and whether a noisy booster set pump and break tank will be required? 5. How will the bin lorry enter the site under the new design?"/>
