Comments	<input type="text" value="We feel this property will be oversized and totally not in keeping with other houses in near proximity. As neighbours we will be over looked massively, not being able to use our garden as before. The 2nd storey extension is not in keeping, We feel the 2nd/3rd floor especially will effect light into our garden. We feel this will be a complete eye sore and the dormer will look totally different to any other surrounding premises as nobody else has a dormer, at least 5 houses either side of this property. We understood that 2nd floor extensions had to be stepped back 1m. On plans for 93 this is not the case, so think this is excessive. Having a second and third floor extension means that when we exit our extension we will look up at what will look like a multi storey block of flats, totally destroying our view. Obviously we think proposals for this property are extremely excessive."/>
