| Proposal | Demolition of existing buildings and erection of 14 dwellings |
| Case Officer | Mr Mark Peacock |
| Organisation | |
| Type of Comment | Objection |
| Type | neighbour |
| Comments | <p>Traffic congestion,normal times trains full,parking at station limited,parking in village limited.Doctors Dentists we struggle with appointments normal times.The flooding is significant Green belt lost which obviously takes up most rainwater flooding all over Cuffley is problematic without more housing.Buses are rare,so obviously everyone In Household who can drive eventually will drive cars.More people increases pollution in Cuffley where we were hopeful to reduce pollution.Why anyone would wish to live in vicinity of refuge plant which absolutely smells horrific many times in summer unbearable for school children in Cuffley School had to cancel sports day due to smells as strong sick.Will there be enough school places for the influx of children to Cuffley.Cuffley as many Green Belt Villages are the lungs for pollution in London which will deteriorate further if we take Green Belt for housing.</p> |
