Dear Ms Stainer

I wish to strongly object to the above retrospective application on the following grounds:

- 1) Neither the existing or proposed Block Plan shows the outbuilding at the rear boundary which was the subject of an application (Reference: S6/2009/2047/FP) under similar circumstances in 2009, and therefore the whole picture has not been shown.
- 2) The new extension has significantly increased the building in a site which is already overdeveloped in relation to the neighbouring residential properties.

Yours sincerely,
