Section Through Lettering

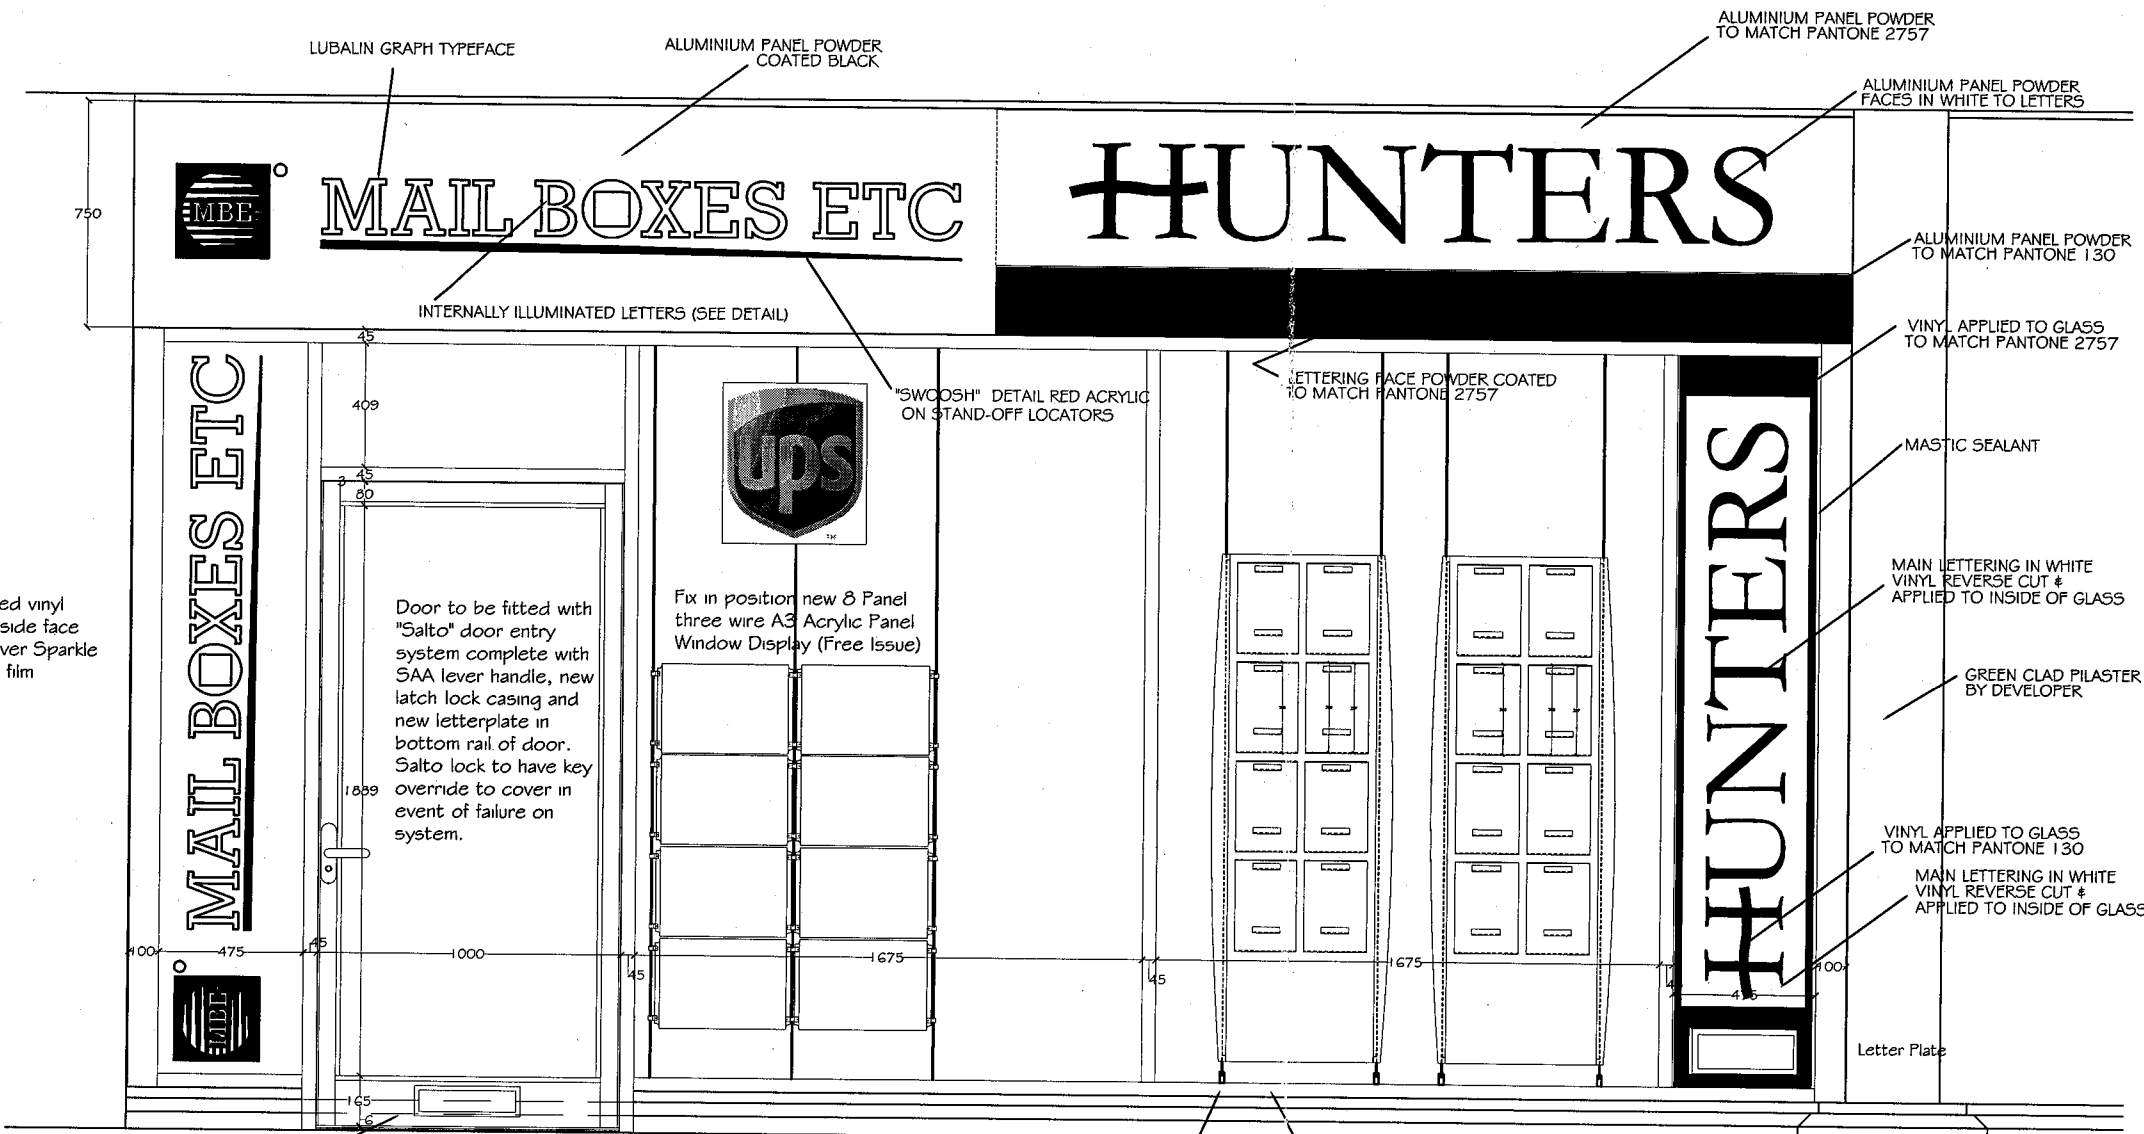

Section Through Logo

Elevation of Logo

Internally illuminated logo constructed from Opal acrylic overlaid with 3M Scotchcal Translucent Film Series 3630 MBE Black applied to create logo over white acrylic block pushed through panel by 20mm as lettering on main fascia.

CONSTRUCTION DETAIL (Not to Scale)

Shopfront Elevation - Proposed

Reverse cut frosted vinyl logo applied to inside face of glass in 3M Silver Sparkle or equivalent vinyl film

Cut back existing brick plinth to form new opening for shopfront entrance door with mitre brick fitted at opening to trim into new sashwork. Make good to DPM as required. New shopfront door to be fitted with mill finish aluminium threshold, letterplate, Dorma (or equivalent) overhead door closer with non-hold back facility and new Salto door entry system reference

New aluminium framed shopfront formed with 100x100mm & 100x45mm extruded sections all to be powder coated to match RAL 7015. Main sashwork to be glazed with a minimum of 10.8mm laminated safety glass all to BS6262 with door glazed with 8.4mm laminated safety glass all marked with a BS kite mark.

New shopfront to be fixed onto tanalised timber grounds with sill pressing over to match RAL 7015. Head of shopfront to be secured to tanalised softwood framework sheeted with 18mm thick exterior grade plywood for fixing of new fascia signage.
