3. Description of the Proposal

Please describe the proposed development including any change of use:

It is proposed that the existing sports hall roof and wall cladding will be removed and the existing structure used to form the basis of the new sports hall and ancillary building. The mobile classrooms will be removed to allow the extension to take place.

We believe that improving the current facility will be preferred to locating a new site within the school grounds.

The existing sports hall facility is in need of repair and upgrade. The proposal to re clad the existing structure but add some additional facilities seems the most logical solution to provide a much-needed part of the curriculum in a modern building, that provides areas of accommodation that currently fall short of being adequate.

It is proposed to provide a new parent drop off lane, and redefine the carpark to increase the current numbers of 85 spaces approx. to 102 spaces approx.

Has the building, work or change of use already started?
