Eligibility
Permitted development rights are subject to conditions set by legislation to ensure that only appropriate proposals are eligible.
The need to apply to the Local Planning Authority to see if prior approval is required is one such condition.
The questions below will help determine if the proposals are eligible for this permitted development right.
The current building and site
Was the current use of the building as dwellinghouses only granted by virtue of permitted development rights under Schedule 1, Part 3, Class G, M, MA, N, O, P, PA or Q of the Town and Country Planning (General Permitted Development) (England) Order 2015 (as amended)?
○ Yes
⊙ No
Was the current building constructed between 1 July 1948 and 28 October 2018?
<ul><li>✓ Yes</li><li>○ No</li></ul>
Have additional storeys already been added to the original building (as it stood on 1 July 1948, or as built after that date; or, if 'Crown land', as it stood on 7 June 2006, or as built after that date)?
○ Yes ② No
Is any part of the land or site on which the building is located:  • in a conservation area;  • in an area of outstanding natural beauty;  • in an area specified by the Secretary of State for the purposes of enhancement and protection of the natural beauty and amenity of the countryside;  • in the Broads;
• in a National Park;
<ul><li>in a World Heritage Site;</li><li>in a site of special scientific interest</li></ul>
○Yes
⊗ No
The proposed development

Will the proposed additional storeys only be constructed on the principal part of the building (i.e. the main part of the building excluding any front, side or rear extension of a lower height, whether this forms part of the original building or a subsequent addition)?
<ul><li>Yes</li><li>○ No</li></ul>
Would the floor to ceiling height, measured internally, of any proposed additional storey exceed:  • 3 metres; or  • the floor to ceiling height, measured internally, of any existing storey of the principal part of the existing building
○ Yes ⊙ No
Would the proposed extended building's:  • height exceed 18m (as measured from ground level to the highest part of the roof); or  • roof be:  - more than 3.5 metres higher than the highest part of the existing roof, where the existing building consists of one storey above ground level; or  - more than 7 metres higher than the highest part of the existing roof, where the existing building consists of more than one storey above ground level.
○ Yes ⊙ No
If the dwellinghouse is not detached, would the proposed extension result in the highest part of the roof exceeding 3.5 metres above either:  • the highest part of the roof of the building it is joined to (e.g. by party wall or adjoining main wall); or  • if in a terrace, the highest part of the roof of any building in the row it is situated
○ Yes ⊙ No/The dwellinghouse is detached
Will the development include a window in any wall or roof slope forming a side elevation of the building?
○ Yes ⊙ No
Will the roof pitch of the principal part of the proposed extended dwellinghouse be the same as the roof pitch of the existing dwellinghouse?  ⊘ Yes  ○ No
Will the materials used in any exterior work be of a similar appearance to those used in the construction of the exterior of the existing dwellinghouse?
<ul><li>✓ Yes</li><li>○ No</li></ul>
Following the development, will the dwellinghouse remain in use within Use Class C3 and for no other purpose, unless that purpose is ancillary to the primary use as a dwellinghouse?
<ul><li>✓ Yes</li><li>✓ No</li></ul>
Related operations and works
Will any proposed engineering operations reasonably necessary to construct the additional storeys include:  • Provision of visible support structures on or attached to the exterior of the building upon completion of the development; or  • Anything other than works within the existing curtilage of the building to strengthen existing walls or foundations
○ Yes ⊙ No
Description of Proposed Works, Impacts and Risks
Proposed works

Please describe the proposed development including details of any works proposed

prior approval for the construction of an additional storey to facilitate the enlargement of the dwelling house to a maximum of approximately 9.084m in height

Please describe the effects of the proposed development on the external appearance of the building including the design and architectural features of the principal elevation (and any side elevation that fronts a highway)

The ridge height increase of 2.725 metres is below the 3.5m limit.

The roof form is to match the existing for span and pitch.

Materials would match the existing for facing brickwork and render elevations and roof tiles.

Fenestration is proposed to match the existing for white UPVC frames, of matching size and design.

No side elevations face the highway and no first floor side windows are proposed. The house would simply be lifted up by one storey, with the same roof as existing, and remain as a single family dwelling.

In the case of upwards extensions consideration must be given to every face of the building

#### Measurements

What is the current height of the dwellinghouse (in metres, as measured from ground level to the highest part of the roof).

6.75

What will be the height of the dwellinghouse once the additional storeys are added (in metres, as measured from ground level to the highest part of the roof).

9.08

### Impacts and risks

Please provide details of any air traffic and defence asset impacts and how these will be mitigated

There are no air traffic and defense asset impacts of the development

Please provide details of the impacts of on the amenity of any adjoining premises including overlooking, privacy and the loss of light and how these will be mitigated

The development will not impact on the amenity of the existing building, or upon neighbouring premises. No overlooking, loss of privacy or loss of light would result for either of the two neighbouring dwellings of the site.

This is due to the existing dwelling being in line with the neighbouring dwellings, with no side windows proposed.

The living conditions of adjacent occupiers would not be at all harmed as a result of the development

In the case of upwards extensions this includes neighbouring properties which are not contiguous with the proposed development site. Further details should be provided for these application types

Where relevant (due to the siting of the building), please provide details of the impact on any protected view.

The development will not impact on any protected view identified in the Directions Relating to Protected Vistas dated 15th March 2012 (3) issued by the Secretary of State.

These are identified in the Directions Relating to Protected Vistas dated 15 March 2012 issued by the Secretary of State.

## **Declaration**

I / We hereby apply for Prior Approval: Additional storeys on a dwellinghouse as described in this form and accompanying plans/drawings and additional information. I / We confirm that, to the best of my/our knowledge, any facts stated are true and accurate and any opinions given are the genuine options of the persons giving them. I / We also accept that: Once submitted, this information will be transmitted to the Local Planning Authority and, once validated by them, be made available as part of a public register and on the authority's website; our system will automatically generate and send you emails in regard to the submission of this application.

✓ I / We agree to the outlined declaration
