Comments	<input type="text" value="My two primary concerns are that 1) due to the proximity of the garage to neighbouring housing, residents are consulted and informed of the timetable and progress of the works. Any delays in the programme would have a significant impact. 2) That the impact on the pavement is minimal and suitable provision to safely navigate pedestrians is provided as there is no alternative pavement on this section of road (i.e. the opposite side of the road is grass verge).?"/>
